

*Come on out to the UCLS Fall Forum one day conference. It is designed for surveyors who are interested in geospatial technologies to explore the newest technology trends, work-flows, equipment and business opportunities in surveying and related fields. The Forum will also provide training and networking opportunities.*

*Fall Forum participants will see how to solve business problems and increase their bottom line using new surveying technologies and practices. They will learn about current technology challenges and developments related to GIS and the Surveyor from BRENT JONES, ESRI's surveying, cadastral and land records industry manager.*

*They will learn how to implement training and testing programs for their Survey Technicians through the NSPS Certified Survey Technician (CST) Program presented by JOHN R. FENN, who has taken an active role in the program, serving on the CST Board for 10 years.*

*They will learn of the proposed construction layout standards being prepared by the UCLS Construction Committee working in correlation with the AGC of Utah.*

*Finally, the participants will have the opportunity to meet the 2010 UCLS Scholarship recipients and vote on some minor changes to the UCLS Boundary Survey Standards -- all while receiving continuing education units (CEU).*

*They will get opportunity to make network with colleagues; geospatial professionals and other users of surveying, GPS, and GIS technology. It is a must-attend event for the surveying community, as it provides access to the pinnacle of technology available to surveyors and mappers in Utah.*

# 2010 Fall Forum

September 10, 2010

7:30 a.m. to 5:00 p.m.

Salt Lake Community College  
Student Event Center  
4600 South Redwood Road  
Taylorsville, Utah

## Fall Forum Agenda

September 10, 2010

7:30 a.m. Registration and Parking Validation

8:00 a.m. Welcome by Walt Cunningham, SLCC

8:15 a.m. Introductory review of the Certified Survey Technician (CST) Program, presented by John Fenn of NSPS.

10:00 a.m. Break

10:15 a.m. How to prepare for and train your technicians to pass the CST exam, presented by John Fenn of NSPS.

11:30 a.m. Lunch Break

1:00 p.m. Why GIS Needs Surveyors, presented by Brent Jones -- the Survey, Cadastre, and Engineering Industry Manager for Esri.

2:30 p.m. Break

2:45 p.m. UCLS Business Meeting (Present Scholarships – Vote on Boundary Standard Changes)

3:00 p.m. UCLS Construction Committee presentation on Standards for Construction Layout.

5:00 p.m. Adjourn

### JOHN R. FENN, PLS

Mr. Fenn is a professional land surveyor, founder and President of Fenn & Associates, Inc., a land surveying and civil engineering company, established in 1978.

On the local level, he served as Vice-President, President, Past President, as well as Chapter representative to the Michigan Society of Registered Land Surveyors (now Michigan Society of Professional Surveyors). He has served on numerous local committees.

On the state level, he served as Treasurer, first Vice-President, two years as President, and one

year as Past President. Mr. Fenn was honored as Surveyor of the Year in 1998.

Nationally, he has been very active with NSPS and ACSM, serving on numerous committees. He was elected to the Board of Directors of NSPS in 2001 as its Vice-President, as President-elect in 2002, and as National President in 2003.

He was Chairperson of ACSM, and Currently serve as Secretary/Treasurer of NSPS.

He has taken an active role in the National Certified Survey Technician program, serving on the CST Board for 10 years.

He is currently serving as a member on the Curriculum Advisory Committee of Macomb Community College, Michigan Technological University and Ferris State University.

He has been recognized by both Ferris State University and Michigan technological University as an honorary member of the Lambda Sigma and also honored by being selected for a member of the President's Club. He received an honorary doctorate degree from Ferris in 2007.

Mr. Fenn is currently serving as Secretary/Treasurer of NSPS, INC. and as an active member on the CST Board.

### BRENT JONES, PE, PLS

Brent Jones is the Survey, Cadastre, and Engineering Industry Manager for Esri where he oversees worldwide strategic industry planning, business development, and marketing activities. For the last 15 years, he has specialized in executive-level strategic technology planning and market development in the engineering, surveying, and geospatial industries.

As a registered professional engineer and licensed land surveyor, Jones' technical background includes utility design, land surveying, construction management, mapping, AM/FM services, GIS design and implementation, photogrammetry, regulatory permitting and compliance, along with risk analysis, opportunity assessment, and business growth management. A graduate of the University of Maine, he currently serves on the board of directors of the Open Design Alliance (ODA) and is past president of the Geospatial Information and Technology Association (GITA).
